NEX / DUBAI

Holographic foil

250 × 25 mm / 1:1

Production

Holographic face stock; the rainbow reflection comes from the material.
Flat finished size 250 × 25 mm. One-sided, outside face, actual size 100%.
Each full-size page is 256 × 31 mm including 3 mm bleed all around.

Registration and fastening

Keep both ends free of critical art for the supplier fastening system.
Match the actual fastener and stock die before the run; no die or hole is pre-punched.

Output pages

Page 2: colour artwork. Vector paths, sRGB input. Map to the press profile.
Page 3: White_Ink spot plate. Print white under the coloured art only.
Page 4: finished outline for registration and cutting only.
White plate displays dark for inspection. Assign it to physical white ink.
Do not print the simulated iridescent background from the preview.
